

FLOW | WATERPROOF

TECHNICAL FEATURES

Waterproof is a technical substrate based on fiberglass, crafted to decorate, but also to make wall surfaces impermeable in damp settings. This high-performance substrate can withstand high thermal stress.

SPECIFICS

NATURE OF COMPONENTS

Glass fiber.

LOOK

Similar to a fabric weave.

TYPE OF PRINT

Digital printing with the possibility of graphic resizing

RECOMMENDED USE

Damp areas: bathroom, showers, wellness centers, spa, gyms, etc...

TOTAL WEIGHT

200 / 240 gr. / m²

ROLL SIZE

W 95 cm.
